Every Journey starts with a single step....

What should I do if I haven't passed all my modules by the end of the Academic year?

Question: I haven't passed some modules in Semester 3 (August Repeats). What can I do now?

Answer: If you haven't successfully completed all your modules by the end of the Academic Year, you have a few options: -

1. **Repeat & Attend**

Stay in your current year of study and retake only the modules you did not pass.

Students who wish to Repeat & Attend in the Academic Year 2025 / 2026 **must discuss their application with their Faculty** before completing the form which is available online.
