WHY CHOOSE IRELAND

Scan to Learn More

Opportunity

Ireland is a member of the European Union and home to many of the world's most successful globally-traded companies. It offers excellent graduate employment and long term career opportunities.

Graduate Visa

Bachelors Honours & PG Graduates have a post-study work permit of 1 – 2 years following completion of their programme.

Education

Ireland is the largest English-speaking country in the EU, and is recognised for excellence in education.

Welcoming

Recent studies show that Ireland offers the best international student experience and quality of life.

Safe

Ireland has been recognised as the 2nd safest in the world according to the Global Peace Index in 2024.

Employment

Students can work part-time up to 20 hours per week during term time, and full-time which is up to 40 hours a week during holidays. The minimum wage in Ireland is currently €12.70 per hour which is the 2nd highest rate in Europe.

About Athlone

Athlone is located in the midlands of Ireland and is often referred to as the "Heart of Ireland". Situated on the River Shannon, Athlone is a busy and prosperous town with an abundance of interesting tourist attractions and excellent sporting and leisure facilities.

It has a population of 30,000 people and is just over one hour's drive from the capital city of Dublin.

The TUS Athlone campus is located just a stone's throw outside the town. Our Athlone campus is home to 6,000 students and is renowned for its warm, friendly and inclusive campus culture, which supports students in reaching their full potential. The Athlone campus is also home to some totally unique course offerings, including Ireland's only dedicated microbiology degree. Athlone campus

houses our state-of-the-art International Arena and contains the country's first international standard indoor athletics track. It is also home to the Athlone International Grand Prix, Ireland's premier athletics meet. Students at the Athlone campus can avail of all the latest technologies and equipment, including Alter G AntiGravity treadmills (designed by NASA) and cryotherapy pods.

Athlone**

About Limerick

On the banks of the River Shannon and sitting at the edge of the Wild Atlantic Way, Limerick is Ireland's third largest city, and the third largest English-speaking city in the EU. Limerick is a historic city with a rich medieval past and steeped in culture. Located 15 minutes from Shannon International Airport, Limerick is within Europe's Top-10 cities in attracting investment, growth and opportunity.

TUS has 2 major campuses in Limerick City. There is the TUS Limerick Moylish Campus which is located on the outskirts of Limerick city and is our principal Midwest campus. Located in the shadow of the world-renowned Thomond Park, home to Munster Rugby, and a short walk from the TUS Gaelic Grounds, more than 7,000 students are based at Moylish. The second Limerick Campus is the Clare Street Campus also called the Limerick School of Art and

Design. The Clare Street campus is home to our internationally renowned Limerick School of Art & Design (LSAD), a vibrant, living "canvas" for the creation, display and celebration of the artistic talents of our students. It has an award-winning reputation, including our Fashion Department listed in the top 50 worldwide, and cutting-edge creative technologies for student learning.

Why Choose TUS

Learn more about TUS

Welcome to Ireland's Leading Technological University

Start your academic and career path at TUS, Ireland's first technological university with a QS 5 Stars rating, including the first in Ireland for Arts and Culture.

A Home Away From Home

With over 15,000 students from 100+ nationalities, TUS offers a diverse and inclusive environment where everyone feels at home.

Exceptional Student Experience

Awarded Best Student Experience at the Education Ireland Awards 2024, TUS provides state-of-the-art facilities, clubs, societies, and dynamic campus life so you have a rich academic experience.

Outstanding Employability

TUS graduates have the highest employment rate in Ireland, with 86.9% employed within nine months and 96.4% in engineering fields.

Global Recognition and Collaboration

Winner of the Best International Collaboration Award, TUS boasts strong global partnerships, enhancing educational offerings and opportunities.

Innovative and Practical Learning

Programmes at TUS include industry placements, ensuring practical experience and active learning. We are home to industry-led research projects, learning, research and innovation.

L8	Bachelor of Science (Honours) in Mental Health Nursing* (Level 8)	Athlone Campus
L8	Bachelor of Science (Honours) in General Nursing* (Level 8)	Athlone Campus

Tuition Fees

Level	Full Fee
Foundation	€11,000
Undergraduate	€13,500
Higher Diploma	€14,000
Taught Masters	€14,500 (unless stated below)
BSc (Hons) in Nursing & BSc Mental Health Nursing	€18,500
MA in Accounting, MSc Product Design Control, MENG Engineering Management, Digital Health, MENG in Mechanical Engineering	€16,500
MSc Software Design Cloud Native Computing, MSc Software Design with Artificial Intelligence, MSc in Software Design with Cyber Security, MSc Software Engineering, Master of Science in Applied Artificial Intelligence for Business, MSc Process Validation and Regulatory Affairs (Pharmaceutical & Medical Technology)	€17,500
MSc Quantity Surveying, MSc Data Analytics, MSc Business Analytics, MSc Biopharmaceutical Technology, MSc in Pharmaceutical and Chemical Analysis, MSc in Nursing Leadership and Quality Healthcare	€18,500
MBA	€20,500

**All fees are payable in advance of joining programme.*

Fees Include

- Access to TUS Student Services.
- Global Orientation for all Programmes during the first week of September.

Fees Payment

TUS uses the online system Flywire in order to process fees from outside of Ireland. To pay your fees, you must hold a conditional offer from TUS. If you hold a conditional offer from TUS, you can access the payment link via your Conditional offer letter.

For students paying from within the Republic of Ireland, we ask you to contact Global@tus.ie for information on how to proceed with your payment.

Scan here for more information about fees

Scholarships

Scholarships of between €1,000 and €4,000* are available for all students. Scholarships are awarded upon initial assessment of applications, and your awarded scholarship will be included in your Conditional Offer letter.

- Academic/Merit Based Scholarships: Scholarships awarded on students GPA.
- Partnership Scholarships: Available to students transferring from designated TUS Partner Universities.
- Alumni Scholarships: Available to previous graduates of TUS.
- Sibling Scholarships: Applied to direct family members of students registered at TUS
- TUS Global Scholarships: Scholarships based on a student's personal and community achievements—whether in their field of work, volunteering or personal accomplishments.
- Ambassadorial Scholarships: Scholarships awarded to students from countries where TUS hold an ambassadorial agreement.

*Students may be eligible for a combination of these scholarships with the maximum awarded capped at €4,000.

Standalone Scholarships

- EU Homecoming Scholarships: A €5,000 Scholarship awarded to students holding an EU Passport joining Year 1 of an undergraduate degree.
- Postgraduate Nursing Scholarship: A €6,000 scholarship available to students studying the Master of Science in Nursing in Leadership and Quality Healthcare.

Please Note: Scholarships awarded on point of entry are applied for each academic year of the designated programme.

English Language Requirements

All students are required to meet the minimum English language requirements for entry to any programme at TUS.

Entry Level	English Language Requirement	Accepted Equivalent Tests
Foundation	IELTS 5.0	CEFR, Duolingo, TOEFL, Pearson PTE
Year 1	IELTS 6.0	CEFR, Duolingo, TOEFL, Pearson PTE
Year 1 Nursing	IELTS 7.0	CEFR, Duolingo, TOEFL, Pearson PTE
Advanced Entry Year 2,3,4	IELTS 6.0	CEFR, Duolingo, TOEFL, Pearson PTE
Postgraduate Higher Diploma	IELTS 6.0	CEFR, Duolingo, TOEFL, Pearson PTE
Master's Programme (Level 9)	IELTS 6.5	CEFR, Duolingo, TOEFL, Pearson PTE

How to Apply

Decide on Your Course

Explore our extensive list of courses to find the perfect fit for your academic and career goals. Visit our courses page - www.tus.ie/courses for detailed information on each program.

Prepare Your Documentation

Ensure you have all relevant documents ready to upload, including previous qualifications and academic results.

A. Undergraduate Entry Requirements;

International Passport, Secondary school certificate, Statement of purpose, English language test and transcript from high school. You will also need to submit a portfolio if you are applying for an Art & Design course.

B. Postgraduate Entry Requirements;

International Passport, University certificate, official transcript from university, statement of purpose, CV/Resume, Portfolio (for some courses), at least two reference letters and English test results.

Submit Your Application

Complete and submit your application before the deadline. For the September 2025 intake, the deadline is June 1, 2025.

Careers & Employability At TUS

Learn about how TUS prepares you for your career

Industry Engagement at TUS

Technological University of the Shannon (TUS) excels in bridging the gap between academia and industry, ensuring our graduates are work-ready and highly sought after by employers.

1. QS 5 Stars in Employability

TUS holds a prestigious QS 5 Stars rating for employability, underscoring our commitment to student career success.

2. Highest Graduate Employment Rates According to the latest HEA Graduate Outcomes Survey, 86.9% of our 2022 honours degree graduates are employed nine months after graduation, the highest rate in Ireland. Specifically, 96.4% of our engineering, manufacturing, and construction graduates are employed, outperforming the national average by almost 11%.

3. Integrated Industry Placements

Our programmes include compulsory, graded industry placements, providing students with practical experience and professional connections.

4. Career Services and Support

Our Careers Office offers extensive services, including career advice, CV and interview preparation, and annual Careers Fairs, helping students transition smoothly from university to the workforce.

By prioritizing industry engagement and providing robust career support, TUS ensures our graduates are equipped with the skills, experience, and networks necessary for successful careers.

Industry Partners at TUS

Rockwell Engineering

"We are delighted with our TUS graduate hires and from our communications with them, we're also confident that they each too are really enjoying their time at Rockwell.....it's a win win". *Lorraine O'Dea*
- HR Manager, Rockwell Engineering

SHERATON

Sheraton Hotel

As a local employer in the hospitality industry we have forged a longstanding relationship with TUS Athlone. Hodson Bay Group of Hotels, in particular the Hodson Bay Hotel and the Sheraton Athlone Hotel have benefited greatly from placements where students get to put theory into practice in a 4-star hotel setting. Students particularly like that there is a Sheraton Hotel so close to the college which allows them gain experience within the international Marriott brand, the world's largest hotel chain. The students graduating from TUS and joining our teams are well rounded in knowledge and skills to succeed in the workforce". *Eoin Mannion* - Director of Hodson Bay Group HR.

Google

"If a future employer is looking for Ireland's next top digital marketing talent, there would be nowhere better to start than looking at the group of the TUS Digital Marketing Masters graduates. If you are considering doing a Masters in Digital Marketing, then the curriculum and lectures they have at TUS is second to none."

Robert Malone - Senior Account Manager at Google

TUS is a QS 5 Star Rated University!

The Technological University of the Shannon (TUS) is now a QS* 5 Star university, having achieved the highest possible number of stars to become one of the top-rated universities in the world.

The QS university rating system is considered one of the most influential and credible ratings for universities internationally, as ratings are entirely based upon an institution's performance. The advantage of this rating system over a global ranking is that it highlights for potential staff and students, as well as to future partners, the many areas in which TUS excels.

The rating system evaluated TUS's performances in eight categories including: Teaching, Employability, Internationalisation, Academic Development, Online Learning, Programme Strength, Arts & Culture and Inclusiveness, all of which received five stars.

What our Students Say...

Swathi Thekke Kambarath

Masters in Software Design with
Cloud Native computing
Graduate

India

"The structure of the modules makes the course both easier and more engaging to learn. Additionally, the campus is truly remarkable in its layout, and the cultural programs being conducted are exceptional. It assisted me in developing my understanding and expertise in technology".

Ali Li

Master of Science in Digital Marketing
(Level 9)
Graduate

China

Bronze winner for the Digital Student of the Year by the Digital Media Awards Ireland

"Personally, the most rewarding aspect of my Digital Marketing programme has been the opportunity to develop a digital marketing strategy for a real company. This practical experience allowed me to apply the knowledge gained from my coursework and deliver tangible results that contributed to my partner company's business objectives.

I was tasked with designing brand guidelines, building social media channels, and optimising the company's website for search engines. Other modules also provided valuable insights. Embedded within these modules are professional, industry-recognised certifications in inbound marketing from HubSpot, pay-per-click advertising from Student, analytics from Google and web development from Shopify. While the programme was only a year long, I thoroughly enjoyed it".

Jakub Konstanski

Bachelor of Arts (Honours) in
Social Care Practice
Current Student

Poland

Recipient of the President of Ireland Gaisce Award for Volunteering with Comhairle na nÓg (Irish Youth Council)

"I chose the Bachelor of Arts (Honours) degree - Level 8 because it is a four-year course that offers two separate opportunities for placements. This structure

allows for a wider variety of experiences and helps you become familiar with areas of interest for future work. The four years I spent in this programme have shaped me into the person I am today.

The support within the college and the availability of faculty staff who are always on hand, helps make your college experience much more enjoyable. It makes you feel a lot more supported. Throughout my time at college, I have engaged with numerous clubs and societies, which is a fantastic way to meet new people and try things I hadn't experienced before. TUS offers a wide range of facilities and engaging opportunities that encourage students to learn in both educational and fun ways.

While this course is for four years, it is structured with two different placements, providing a great opportunity to explore which area of social care you truly want to pursue".

Onyekachukwu Chukwudebelu

Masters of Engineering Management

Current Role: Working in Sustainable Engineering with Viotas

Nigeria

"There are many things I love about my programme. In my first semester, I was introduced to the financial and managerial aspects of business, which broadened my understanding of the business world. Previously, I had only seen it from an engineer's perspective. In the second semester, we delved deeper into sustainability in both the financial and energy sectors, working on projects both individually and in groups, with guidance from experienced lecturers.

Our lecturers had extensive experience in both academia and industry, which made learning easier because they could relate to our perspectives and communicate effectively. The relationship between the school staff and students was great—they worked hard to create a supportive learning environment and regularly asked for feedback to improve.

This programme set me on the right path toward renewable energy and energy management while expanding my knowledge in other areas. It also helped me smoothly transition into my current role in the energy sector, making interviews and training easier as I adapted to the professional environment."
