Appendix 5: Elective Modules.....	15

## APPLICATION TO REGISTER:

A candidate wishing to carry out research in the Technological University of the Shannon: Midlands Midwest needs to be able to fund their research by either applying for research grant funded projects or by self-funding the project. In either case a supervisor is assigned to the candidate and the research proposal developed. Where necessary the proposal may need to be reviewed externally.

A completed registration document (GS1) is submitted to the Graduate School to be reviewed for completeness, qualifications, and English language requirement. The application is passed for review at the Research Committee. The review should include the following: project content, supervision, faculty resources such as equipment, time and supervision, type of enrolment and where necessary the content of a qualifier programme. On sign-off by the RC, the Graduate School informs the candidate of his/her requirement to register, issues documentation/information and enrolls the candidate. Banner is updated by the Graduate School. See Registration below.

**See Appendix 1 for the Postgraduate Application Process**

**See Appendix 2 for standard operating procedure of interview process for the Graduate School.**

## REGISTRATION:

Once approved, candidate is contacted with formal offer letter, instructions to register, instructions for enabling student email address, GS18 (finance set up) form, intellectual property form, tax exemption form, medical insurance requirements (for international students), data protection/confidentiality form. Candidate is registered on Banner providing all details including programme of study, fees, address, dob, phone number, bank details, stipend particulars, cost centre. Registration and Project Accountant are informed of new registrations.

Induction is arranged for all new entrants at the earliest available opportunity.

**See Appendix 3 for Guides for New and Existing Research Students**

## CREDITS REQUIREMENT PROCESS:

Graduate School oversees the up taking of Core and Elective modules for Research Students. This includes; registration of all modules (internal & external), Banner manipulations, addition of external credits etc. Core modules are delivered by Dr Jeff Buckley. Elective modules are taken from existing Level 9 taught programmes within the faculties. Bi-yearly an application process is launched by the Graduate School whereby the research student applies for Semester 1 or Semester 2 modules.

**See Appendix 4 for Credit Requirement: Core & Elective Modules**

**See Appendix 5 for Elective Module List**

## RESEARCH INTEGRITY – EPIGEUM ONLINE MODULE:

The Graduate School Office registers all new research students as a pre-starter on an online training module called Research Integrity. This training module is delivered by Epigeum and is at the request of external funding agencies and also by TUS's Internal Research Funding programmes. It is also a pre-requisite of the core module of the same name.

Funding agencies (SFI, IRC, etc.) will be seeking proof of completion of the training in their annual reporting. TUS will require all research students to have completed the training to be eligible for Seed Funding or Research Time Release Support.

Once successfully completed please ensure you print off a copy of the Completion Certificate and retain it for your files. The Completion Certificate will be accepted by an HEI in Ireland or the UK.

## CONTINUATION OF STUDIES:

Once registered and commenced all research students are directed to continue their studies using Graduate School Forms (GS1 to GS19). Any changes to a research student status/details must be processed formally through the Graduate School, namely; amendment of registration status; change of supervisor; intention to present etc . See Fig. 1.

-  GS1 Application for Registration of a Research Degree Programme 2023
-  GS2 Intention to Present for Transfer to PhD Register
-  GS3 Intention to Present and Submission of Thesis
-  GS4 Permission to Continue (beyond prescribed period of registration)
-  GS5 Notification of Change of Supervisor
-  GS6 Graduate Support Panel (GSP) Annual Progression Report
-  GS7 Graduate Support Panel (GSP) Repeat Progression Report
-  GS8 Amendment of Registration Status
-  GS10 Transfer Assessment Report
-  GS11 External Report Form for Masters Research
-  GS12 Internal Report Form Masters
-  GS13 Internal Report Form Masters Research (Confirming Report)
-  GS14 External Report Form for PhD
-  GS15 Internal Report Form PhD
-  GS16 Internal Report Form PhD (Confirming Report)
-  GS17 Chairperson's Report Form for PhD Viva
-  GS18 Finance Set-up Form and Scholarship Exemption Declaration Form
-  GS19B Application for Registration of Elective Modules

Fig 1: List of Graduation School Forms.

## RESEARCH ETHICS COMMITTEE:

The Graduate School provides administrative support for the Research Ethics Committee meetings.

The function of the TUS Athlone Research Ethics Committee is to safeguard the health, welfare and rights of participants and (in the case of hazardous materials) researchers in research studies and to afford dignity to the handling and treatment of biological materials, taking into account the scientific procedures and concerns of the local community. For any research proposal to gain ethical approval it must be of a design that minimises predictable risk to both the research participant and the researcher.

The TUS Research Ethics Committee aspires to provide timely, comprehensive and independent reviews of the ethics of proposed studies.

Through its operation, the AIT Research Ethics Committee would hope to provide AIT researchers (staff and students) with the resources for understanding and addressing ethically significant problems which might arise in their research and to promote responsible research and practice.

**Application form, Guidance Notes and Submission/Meeting dates are available on the TUS website.**

## APPENDIX 2: STANDARD OPERATING PROCEDURE FOR RESEARCH STUDENT RECRUITMENT & INTERVIEWS

1. The supervisor completes a project description template document which details all information about the postgraduate research post.
2. Supervisor supplies Graduate School (GS) with the project description (via gsr@tus.ie) which the GS then posts on the TUS website – all positions must be advertised on the TUS website.
3. A minimum closing period of **two weeks** must be allowed for from the date of the advertisement being posted on the TUS website to allow candidates every opportunity to apply.
4. Once the closing date for the project has passed the supervisor should request sight from the GS of all applications that applied for the project, and they will be shared via OneDrive.
5. A minimum of **one weeks' notice** prior to interviews must be given to allow prospective applicants time to prepare for the interview process.
6. The supervisor/s undertake a shortlisting process and identify candidates for interview. It is important to note that clear shortlisting criteria aligned to the criteria in your advert is essential and most importantly to the TUS Regulations. Please outline clearly the criteria as to why you are including and excluding any candidates. Have a clear justification noted in case you are asked for reasons at a later stage. Please ensure that you have a second person to confirm your shortlisting criteria and selected list for interview and any candidates that you deem ineligible also.
7. Supervisor contacts shortlisted candidates to be interviewed along with date, time of interview.
8. Supervisor/s must ensure interview panel has a gender balance and made up of at least 2 or 3 panel members.
9. GS provides supervisor with the relevant 3 documents for interview:
  - a) Declaration of interest form - one for each panel member & must be signed by him or her.
  - b) Interview assessment form - 1 per candidate to be completed by panel.
  - c) Interview selection form - detailing order of successful candidates. Outline the no. 1 candidate being offered the postgraduate position and any names in order for other candidates to be panelled for the position.

7. Following receipt of the scanned interview documents back from the interview chair the GS contacts successful candidate outlining conditional offer. On acceptance of provisional offer the GS provides the candidate with the GS1 (Registration) form with the instruction that they complete the personal details, sign and forward to supervisor. Supervisor completes their section of the form.
8. Graduate School alerts the relevant faculty that they have a candidate for approval and for presentation to the next Research Committee meeting.
9. RC signs off on candidate's registration after which they forward the GS1 to the GS for final approval at the Postgraduate Studies & Research Committee meeting.

**Things to ensure when reviewing applicant CV's.**

- Set out shortlisting criteria including TUS Research Student eligibility outlined in the TUS Regulations.
- Evaluate your applicants against the research student eligibility and the project shortlisting criteria.
- Ensure the level of English for non-EU Candidates to meet the English Language criteria set out in the TUS Regulations
- Review the TUS Regulations before the interview to ensure you and your panel are up to date on TUS regulations for the supervisor and research student to answer any questions.
- Please ensure any notes taken during your interview are submitted back to the GS with your post interview documentation as the GS may be asked for such notes as feedback.
- Please consider the use other mechanism such as short written piece or short presentation as part of your interview for applicants to assist in assessing project subject area understanding, presentation and writing skills.

**1. Before you commence/arrive**

- You will receive correspondence by email prompting you to register on your research programme and to set up your student email account. All formal correspondence from the TUS will be sent to your student email account. It is important to check it regularly.
- Familiarise yourself with the Graduate School Regulations here <https://www.ait.ie/contact/staff/quality/graduate-school>
- You will receive various forms (IP agreement, Scholarship form, Data Protection form, Bank Details Form) from the Graduate School Office- complete and return them.
- Contact your supervisor to discuss and agree your arrival date.
- If international, apply for Visa – contact [gsr@tus.ie](mailto:gsr@tus.ie) for statement of registration to support visa.
- Secure your accommodation - <https://www.ait.ie/accommodation>
- Check out Fees Office for fees (if self-funded) - [studentfees.midlands@tus.ie](mailto:studentfees.midlands@tus.ie)
- If you are in receipt of a scholarship you will need a PPS number for payment - <https://services.mywelfare.ie/en/topics/identity-services/personal-public-service-pps-number/#:~:text=What%20is%20a%20Personal%20Public,services%20and%20information%20in%20Ireland>
- Do you require Disability Support Services? <https://www.ait.ie/life-at-ait/student-supports/disability-supports/>
- All other queries please email Graduate School Office [gsr@tus.ie](mailto:gsr@tus.ie)
- Any IT issues log them here <https://www.ait.ie/life-at-ait/campus-services/student-learning-portal>

**2. After you arrive**

- Email [gsr@tus.ie](mailto:gsr@tus.ie) to identify a desk space.
- Email [tuscard@tus.ie](mailto:tuscard@tus.ie) to arrange to collect your student card. Your student card will also contain access to rooms/labs – agree what rooms are needed in advance with your supervisor.
- Plan out your elective and core modules with your supervisor (identify suitable electives and develop a timeline for completion).
- Start your Individual Study Plan (consult with Supervisor)
- Shortly after you register you will receive an email detailing an online module – Research Integrity – which you must complete. This later links in with a core module of the same name.
- If in receipt of Stipend; it will commence on or before the 17<sup>th</sup> of each month after you arrive/commence.
- Check out <https://www.ait.ie/life-at-ait/> for information on campus facilities, campus services, living in Athlone, your Students' Union, clubs & societies, your health & wellbeing etc.
- Check out the Library services available to you at <https://library.ait.ie/getting-started/postgraduate/>

- All other queries please email Graduate School Office [gsr@tus.ie](mailto:gsr@tus.ie)
- Any IT issues log them here <https://www.ait.ie/life-at-ait/campus-services/student-learning-portal>

### **3. During your studies**

- Check student email regularly for workshops, module information, funding opportunities etc.
- Go to <https://www.ait.ie/contact/staff/quality/graduate-school> for Graduate School forms (GS1 - GS19b). GS Forms oversee transfer from masters to PhD, submission of thesis, intention to present, change to registration, leave of absence, bank details for stipend etc.
- Email [gsr@tus.ie](mailto:gsr@tus.ie) for letters for e.g. medical card, visa, proof of address etc.
- Email [gsr@tus.ie](mailto:gsr@tus.ie) to book meeting room in Research Hub
- If you require an update on your postgraduate funding email [gsr@tus.ie](mailto:gsr@tus.ie)
- Research involving human subjects requires prior approval by the TUS Research Ethics Committee (REC). Applications to the TUS Research Ethics Committee (REC) must at all times be submitted on the designated Application Form. If you need to make a Research Ethics application you can find application form & info here:  
<https://www.ait.ie/contact/staff/quality/research-ethics> Email [ethics@tus.ie](mailto:ethics@tus.ie) .
- All other queries please email Graduate School Office [gsr@tus.ie](mailto:gsr@tus.ie)
- Any IT issues log them here <https://www.ait.ie/life-at-ait/campus-services/student-learning-portal>

## **Masters Students**

- Graduate Studies Pathway (5 ECTS credits) RES 09026
- Research Integrity Across the Disciplines (5 ECTS credits) RES 09027
- Writing Skills for Graduate Students (5 ECTS credits) RES 09028
- Introduction to Research Paradigms (5 ECTS credits) RES 09032
- Advanced Writing for Graduate Students (5 ECTS credits) RES 09030

## **Doctoral Students**

- Graduate Studies Pathway (5 ECTS credits) RES 09026
- Research Integrity Across the Disciplines (5 ECTS credits) RES 09027
- Writing Skills for Graduate Students (5 ECTS credits) RES 09028
- Introduction to Research Paradigms (5 ECTS credits) RES 09032
- Advanced Writing for Graduate Students (5 ECTS credits) RES 09030
- Dissemination and Research Profile for Doctoral Researchers (5 ECTS credits) RES 09031

## **Graduate Studies Pathway**

- Runs every semester
- Seminars
  1. Programme Overview & Introduction to Research
  2. "Doing Research", Reflective Practice & Goals of Research
  3. The Individual Study Plan (ISP), Skills Needs & Regulations
  4. Useful Research Tools & Research Profiles
- Assessment
- Draft Individual Study Plan (ISP)

Note: Module content is subject to change with updated material over time.

## **Research Integrity Across the Disciplines**

- Runs every semester
- Seminars
  1. Epigeum
  2. Ethics Before the Research Commences
  3. Ethics During the Research
  4. Ethics After the Research has Concluded
- Assessment
- Essay on research ethics within the student's field of study

Note: Module content is subject to change with updated material over time.

## **Writing Skills for Graduate Students**

- Currently runs once per academic year with an intention to run every semester in future
- Seminars
  1. Research Outlets

2. Research Questions and Hypotheses
3. Types of Literature Review
4. Writing a Narrative Literature Review
5. Database Searching and Reference Management
6. Structuring Abstracts and Empirical Papers
7. Writing for Different Venues and Audiences
8. Critiquing Research Papers (Disciplinary)

- Assessment

- Write a narrative literature review (field specific), similar to what could be found in a research thesis

Note: Module content is subject to change with updated material over time.

## **Introduction to Research Paradigms**

- Currently runs once per academic year with an intention to run every semester in future

- Seminars

1. An Overview of research Paradigms
2. Positivism, Post-Positivism & Quantitative Methodologies
3. A Primer on Quantitative Data Analysis I
4. A Primer on Quantitative Data Analysis II
5. Interpretivism & Qualitative Methodologies
6. A Primer on Qualitative Data Analysis
7. Pragmatism, Transformativism, & Mixed-Methods Research
8. Sampling Techniques & Determining Sample Sizes

- Assessment

- Write a research methodology that will or has been implemented by the student, in relation to their current programme of study

Note: Module content is subject to change with updated material over time.

## **Advanced Writing for Graduate Students**

- Currently runs once per academic year with an intention to run every semester in future
- Seminars
  1. Research Proposals & Introductions
  2. Reporting Research Methods, Results & Findings
  3. Replicability, Reproducibility, Repeatability & Transparency
  4. Questionable Research Practices
  5. Discussing Research Results & Findings
  6. The Monograph Thesis
  7. The Compilation Thesis
  8. The Peer Review Process
- Assessment
- Write an introduction to the student's research project or field, similar to what could be found in a research thesis

Note: Module content is subject to change with updated material over time.

## **Dissemination and Research Profile for Doctoral Students**

- Currently runs once per academic year with an intention to run every semester in future
- Seminars
  1. Motivating your Research & Developing a Research Plan
  2. Preparing Academic Articles & Introduction to Class Project (Writing an Empirical Article)
  3. Open Science
  4. Data Visualisation
  5. Research Profiles, Metrics, & Altmetrics
  6. Class Project Analysis and Consolidation
  7. Academic Posters and Conferences
  8. Dissemination to the General Public & Preprint Upload

- Assessment
- Write a draft of a submission ready journal article.
- Where conference papers are more relevant to a field such as in certain areas of computing research, a draft conference paper may be the assessment. • This is for the student and supervisor to decide.

## APPENDIX 5: ELECTIVE MODULES

### Faculty of Business

<b>Accounting &amp; Business Computing</b>	<b>Module Title</b>	<b>Module Code</b>	<b>Semester</b>	<b>Credits</b>
<b>AL_KDATA_9</b>	Database Systems	ICT09002	1	5
