

Semester Assignments Planner

- Gather assessment information from Moodle, lectures etc. about your workload for this semester.
- Include all aspects of the assessments, including attendance, mid-term assignments etc.
- Try to gather as much information as possible, such as due dates and the percentage worth of each aspect of assessment per module.

Module name	Breakdown of assessment	Percentage worth of grade	Additional info (e.g. word count, group-based, length of exam etc.)	Due date (if you have it!)
